REISSUE APPLICATION DECLARATION BY THE ASSIGNEE

Docket Number (Optional)

015290-795

At least one error upon which reissue is based is described as follows:
 The original patent is wholly or partly inoperative or invalid because of an error in claim 33. Claim 33 contains the phrase, "the material of the electrode plate has a higher coefficient of thermal expansion than that of the electrode plate..." The error is that, mistakingly, the "electrode plate" is said to have a higher coefficient of thermal expansion than the same "electrode plate."
 [Attach additional sheets, if needed.]

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.
